QuickBooks ® 2009
Enterprise

Features & Benefits

An enterprise business solution that is the pinnacle of the QuickBooks range. Includes comprehensive reporting features, simultaneous multi-user capability, multi-company reporting and is multi-site enabled to help manage the growth of your business.

Share data among up to 10 simultaneous users

QuickBooks Enterprise allows up to ten users to work on the company file at the same time, and provides extra capacity for items and lists.

Multi-site and multi-company reporting

The ability to connect your multiple locations and remote workers helps manage the growth of your business. Parent companies and head offices can now combine reports with QuickBooks Enterprise to pull company data from subsidiaries, divisions, or branches.

Have greater control over data

Set user permissions to restrict access to your confidential and sensitive financial information. This feature is especially useful if your business has multiple users of QuickBooks, and you want to restrict access by user to parts of your financial data. QuickBooks allows you to password-protect your closing date. You can easily see any changes made before the password-protected closing date in a convenient report, showing you who has made what changes.

Comprehensive employee management

Gives you easy-to-use tools and the latest tax tables you need to help manage and maintain control of your payroll. The payroll feature saves you time and money by avoiding duplicate data entry and helps to avoid hassles associated with incorrect payroll withholding.

Increased efficiency with advanced tools

Save your business undue costs by utilising QuickBooks email functionality. Invoices, statements, estimates, purchase orders, sales orders, sales receipts, adjustment notes, and reports can all arrive on your suppliers or customers desktop within minutes. There is no need to seperately track your contact lists - you can easily synchronise your contact information with Microsoft Outlook.
